

FSEM UK Report to Council	Date	19th February 2022
Submitting committee/Group:	Sports Medicine	
From:	Jon Houghton	
Background/Introduction Attached is the preliminary report for the Sports Medicine Committee		
Action Requested		
Action Taken:		

Faculty of Sport and Exercise Medicine (UK)
Sports Medicine Report
March 2022

Summary Report

Following the FSEM strategy day the survey data was analysed and discussed. It is clear that those working in elite sport did not feel either particularly represented or supported by the Faculty compared to those members not working in Elite Sport. The Faculty have put together a strategic plan as one of the 3 key pillars to address this.

I have further emailed around 25 Elite CMOs to gain further information. Planning both a quantitative and qualitative approach to gaining members views via further elite sport focussed survey and phone interviews to address strategic aims. I have approached Dr Glen Rae who has previously expressed interest in being involved in sub-committee.
